

CENSUS OF THE JAPANESE

California to Gather Data Upon Which to Base a Plea for an Exclusion Law.

Sacramento, Cal., Feb. 11.—Moderation on the part of legislators and an evident disposition finally to dispose of all measures relating to Japanese and other aliens characterized today's session of the legislature. Adopting a suggestion by Governor Gillett the assembly voted to appropriate \$10,000 to defray the expenses of a census which shall show the number of Japanese in California and the pursuits in which they are engaged. The statistics are to be used in consideration of future legislation, possibly involving a request by California for an Asiatic exclusion act. In the senate a resolution by Senator Marc Anthony, providing for a special election wherein the voters of California might express themselves on the subject of Asiatic immigration, was defeated by a vote of 22 to 12.

The report of the committee on executive communications advising against any anti-alien legislation at this time, had been made the special order for today in the senate, but its consideration was shut off on a point of order and the matter probably will not be again revived.
